

# TREE AND PLANT PROGRAM

Since 1941, we've offered low-cost, high-quality tree and shrub seedlings to Scott County landowners. By adding native prairie seed mixes and live plant kits, there's now something for everyone to help make our county a more beautiful and environmentally friendly place to live!

Technical assistance is available to Scott County residents. Depending on where you live in the County, funds could be available to help with conservation project costs. Examples: windbreaks, tree and shrub plantings, raingardens along with other conservation projects.

**Tree Sale is Open and will be available for pickup on April 25th.**

For program information or to order and pay online, please visit [www.scottswcdtrees.com](http://www.scottswcdtrees.com)
